

HITLER'S TERMS OPPOSED

FRANCE STRONGLY AGAINST LATEST PROPOSAL

Alice Longworth Says

(Special To The News)

WASHINGTON, D. C., Mar. 16.—There is a rush of "parleys" to tie up loose ends before the president leaves for his fishing trip. The powers that control our destinies

are parleying on housing, on WPA, on the efforts to revive NRA being formulated by the Industrial Coordinator Mr. Berry. Mr. Harry Hopkins' sister has resigned her WPA job in order not to embarrass him. It is general opinion that Mr. Hopkins' embarrassment would be still more relieved if Governor Pinchot and Senator Holt would stop talking.

The willingness of the house to vote \$50,000 to investigate the Townsend Plan shows a marked change from its recent reluctance to explore that curious scheme. Mr. Hearst, backed by the American Newspaper Publishers' Association, has filed suit to restrain the Senate Lobby Committee and the Federal Communications Commission from making use of his messages that they compelled the Telegraph Company to hand over.

Every ring in the big show is going full tilt.

ALICE LONGWORTH.

PA NEW OBSERVES

A show that will be worth seeing is the March 27 and 28 merit badge exposition of Lawrence county's Boy Scouts in the showrooms of a downtown garage. Careful committee work is whipping the plans into A-No. 1 shape and by show-time a real public exhibition will be in order. The merit badges are the "marks of distinction" the scouts earn in their day-by-day activities.

Atmospheric conditions were the worst of the year on Saturday night. Many amusing instances were related by motorists of how they got home. One man reported seeing a car going up Highland avenue, with one of the passengers walking out in front, directing the motorist where to go. Others told of parking their cars downtown and going home on the street car, or walking.

The "soupy" fog which blanketed the New Castle district about midnight Saturday brought a variety of thrills to motorists. Out on highways, as on city streets, traffic crawled at a snail's pace. Certain of the larger buses were guided by emergency cars which served as pilot cars. Many visitors spent the night at homes where they had been visiting because it was next to impossible to get home. The whole story was that you just couldn't see.

Tomorrow is Saint Patrick's Day, traditional time for planting sweet peas, but Pa New imagines few will be planted on this occasion this year.

There should be no unnecessary delay in repairing the top surface of North Jefferson street. This street

DRIVE WILL NOT END WITH WEEK

Safety Pledges Are Being Signed By Citizens Throughout City

Officially proclaimed by Mayor Charles E. McGrath, New Castle's first intensive "safe driving" campaign to rid the streets and highways of reckless drivers, was launched today by the Junior Chamber of Commerce.

The proclamation of the mayor asked for the "sincere support" of all citizens "in this commendable cause."

Thoroughly planned during the past two months, the vigorous "war" against accidents will call to the attention of all—pedestrians and drivers alike—the crying need for reducing the toll of auto injuries and deaths.

Headquarters downtown In a downtown store room the headquarters of the campaign was established with members of the

Proclamation

Whereas, this the 16th day of March, 1936, the Junior Chamber of Commerce is inaugurating a Campaign for Safe Driving on the streets of our city and the highways of this district.

Therefore, be it resolved that each and every motorist give his whole hearted cooperation in this Movement to reduce accidents which at this season of the year with a greater number of cars on the road, tends to multiply the hazards to Motorists and Pedestrians.

May I, as mayor of the City of New Castle, enlist your sincere support in this commendable cause.

CHARLES E. McGRATH, Mayor.

Junior chamber in charge. The public all day long today signed "safe driving" pledges, their written promise to cooperate in every way they can toward making the drive a success. Signatures will be solicited for some time.

The junior chamber announced the campaign will continue indefinitely.

"This drive won't last just a week," President W. Herbert Smith declared. "We are going to keep New Castle safe conscious for some time, if we can do it. We want to reduce accidents."

The forces of General Chairman A. Leland Houk, efficiently carrying out plans laid weeks before, pressed the drive forward along several fronts.

Basketball Fans Battle Fog For Hours And Hours

Most people have hobbies. There are those who collect old postage stamps, match box covers, empty bottles, or autograph of famous folks.

Others go for horse racing, badminton, stud poker or knitting. And then there are those who will travel to Pittsburgh on a foggy night to see a basketball game between two high school teams. A game that was never necessary, proved nothing, and ended not a whit to the stature of the winning team.

Supreme Test Saturday night was the supreme test for basketball bugs and a lot of them proved their right to be rated

as Grade A fans. And after that trip back from Pittsburgh every fan that went down, and there weren't many, deserves a medal.

Going in the weather was bad. The early fans hit two hail storms and some snow. The later fans hit fog from ten miles west of Aetna on into the stadium.

The return trip was a nightmare. A heavy blanket of fog had Pittsburgh looking like London on a bad night and the farther along the road the cars came the worse the fog became.

OKLAHOMA TO BACK LONDON

State G. O. P. Meeting To Select Delegates Instructed For London

(International News Service) OKLAHOMA CITY, Okla., Mar. 16.—Oklahoma Republicans gathered in a state convention here today to choose six delegates-at-large to the national convention. All are slated to be instructed for Gov. Alf M. Landon of Kansas for the G. O. P. presidential nomination.

Shortly before the gavel fell convening the 1900 state delegates, Charles C. Hawk, Republican state chairman, told reporters that "beyond all doubt" the convention would instruct for Landon.

Such action would guarantee the Kansas 12 of Oklahoma's 21 delegates. Six of 15 delegates chosen in district conventions last week were instructed for Gov. Landon, six more were selected after hearing their electors endorse him, while three were uninstructed.

FLANDIN DECLARES HITLER'S ANSWER TO LEAGUE IS REFUSAL

Private Meeting Of League Council Considers Attitude Of Germany

NO DECISION IS AS YET REACHED

League Council May Ask Hitler For Clarification Of His Invitation Reply

By H. K. REYNOLDS International News Service Staff Correspondent

LONDON, March 16.—The League of Nations council meeting in secret session today, was understood to have decided to draft a further invitation to Germany to attend council sessions in London.

LONDON, March 16.—Chancellor Hitler's conditional acceptance of the League of Nations council's invitation to come to London to debate the Rhineland crisis should be considered a refusal, Foreign Minister Pierre-Etienne Flandin told the council today.

A number of other speakers at a secret session of the council were understood to have backed Flandin in opposing acceptance of the German reply.

Maintaining adamant opposition to inviting Germany to London on the Hitler terms, Flandin repeated the French thesis that the Hitler peace plan cannot be discussed while Reich troops still are in the Rhineland.

Hitler's reply asked for discussion of his peace proposals "in due course." This was the crux of the problem, one of the gravest the league ever has tackled.

At Private Hearing Flandin's declaration was made in a statement he read to a 25-minute private meeting of the council, attended by the various delegations of experts and advisors.

The meeting had been opened by Stanley Bruce, of Australia, council (Continued On Page Fifteen)

Plane Crashes Back Of Italian Lines After Short Flight In Ethiopia

(International News Service)

ROME, Mar. 16.—An Italian war-plane crew of five was killed today when it crashed within the Italian lines after a reconnaissance flight on the northern Ethiopian front.

The accident was reported in the daily communique from Marshal Pietro Badoglio, commander of the Italian forces in East Africa.

"There is nothing to report on either front," said the communique. "One of our bombing airplanes, returning from a reconnaissance flight, crashed within our lines. The crew of five was killed."

Addis Ababa Report Says Two Ethiopian Armies Are Still Intact

HEAVY LOSSES ARE ADMITTED

(International News Service)

ADDIS ABABA, Mar. 16.—Two Ethiopian armies totaling around 100,000 men, those of Ras Kassa and Ras Seyum, are still intact and still occupy the western Tembien region, an official government statement, sweeping denying Italian claims of immense victories, declared today.

Heavy fighting took place in the Tembien, however, and it was inferentially admitted that the army of the late Ras Moulougetta suffered heavy losses.

"Strategic Withdrawals." But Italian statements that the forces of Ras Kassa and Seyum had been shattered with more than 10,000 Ethiopians slain, were branded as utterly fictitious.

The Ethiopian troops made strategic withdrawals, according to the government communique, but still occupy the valley of the Takazze river. Italian Alpine troops suffered heavy casualties, it was alleged, and more than 1,500 were slain in the fighting in the region of Antalo and Scelico.

It was also denied that the Italians captured Sokota. Ethiopia remains, therefore, in a position to continue to harass the Italians with guerrilla movement, and perhaps to open a major or counter-offensive later.

DINNER DOWNTOWN FOR ANNIVERSARY

With a beautifully appointed dinner downtown Saturday evening, the T. J. N. club celebrated its anniversary.

Dainty name cards in shamrock design, marked places for 14 guests, among whom were husbands of the members, together with Mr. and Mrs. Chester Johnson, of Canton, O., who were from out of town. Green and white tones prevailed throughout the menu. The committee responsible for the enjoyable occasion was composed of Mrs. Mary Miller and Miss Marie St. Clair.

Later hours were given over to various games and conversation. On Friday afternoon of this week, the club will have a regular meeting in the home of Mrs. W. C. Shanafelt, on West Madison avenue.

Acme Club

DOCTOR, WHY DON'T PEOPLE LIKE ME?

(True "B.O." Experience No. 673, told by a physician)

HER FRIENDS WERE DROPPING HER. EVEN HER HUSBAND HAD CHANGED. SHE CAME TO ME PANIC-STRICKEN. WAS SHE SICKENING WITH SOME DISEASE THAT MADE PEOPLE SHUN HER?

I FOUND NO ORGANIC AILMENT, BUT A VERY REAL TROUBLE JUST THE SAME. PRIVILEGED AS AN OLD FRIEND, I TALKED TO HER FRANKLY.....

I PRESCRIBED LIFEBOUY DAILY AND SHE FOLLOWED MY ADVICE FAITHFULLY

IN NO TIME HER WORRIES HAD DISAPPEARED. SHE IS AGAIN LEADING A NORMAL, HAPPY SOCIAL LIFE. AND ALL THE CREDIT GOES TO LIFEBOUY, WHICH ENDED A DISTRESSING CASE OF "B.O."

A warning to us ALL
DOCTORS, dentists, nurses, teachers—people in every profession, in every occupation have true "B.O." stories to tell. Letters by the thousands pour in! The letter illustrated was written by a doctor. It's a real warning to all of us to play safe! Bathe regularly with Lifebuoy. Even in hardest water it gives an abundance of rich, creamy, penetrating lather. It purifies pores, stops "B.O." (body odor). Its own clean, refreshing scent quickly vanishes as you rinse.

Give your complexion a treat!
Use Lifebuoy! It rids pores of impurities that coarsen the skin... Leaves complexions fresh, clear, glowing! Yet Lifebuoy is more than 20% milder than many so-called "beauty soaps." "Patch" tests on the skins of hundreds of women of all types prove it!

ONE SAFE AND SANE U. S. CITY

WALLA WALLA, Wash., reports that it "went through 1935 without a traffic fatality, murder, or manslaughter." This record, almost too good to be true, calls for felicitations, says the Buffalo News.

Walla Walla is the capital of the famous wheat region of the Palouse. People are "folks" in that part of the world, the insane desire to "hit 'er up" along main streets is definitely absent if the records are to be believed.

Concerning the dearth of homicide cases, much might be written. Perhaps the prosecuting attorney of Walla Walla county is a terror to evildoers. It may be the citizens are definitely law-abiding, that the tendency to substitute a Colt .45 for lead-en-footed justice has been successfully discouraged. Possibly the more uncivilized residents of the community invade neighboring towns when they have a desire to puncture the atmosphere and their fellow man at once and the same time.

Just the same, Walla Walla's record stands, the cynosure of admiring eyes. Larger cities with greater police forces and perplexing crime and traffic problems will sigh wishfully for a state of affairs similar to that which prevails in the Washington Utopia. Lucky Walla Walla!

BASEBALL'S POKER GAME

The Messrs. Dean of baseball—Jerome (Dizzy) and Paul (Daffy)—are poised on the verge of new careers. Dean the elder (Jerome) is about to go into the furniture business at \$25,000 a year. Dean the younger (Paul) has been playing golf all winter with the chief of police at Dallas, Texas, and plans to join the force. The chief says he can have the job if he wants it.

Thus the gain of furniture and law enforcement is likely to be baseball's loss. That is, it would be if there was any likelihood whatever that Dizzy Dean will become a furniture salesman or Daffy will become a cop. Neither is very probable. The announcements of the intended careers of the Messrs. Dean are part of a game. It is called, in baseball circles, "holdout," but it is really poker.

It is poker, moreover, with a maximum of bluff on all sides. The Deans and a considerable company of their colleagues in the baseball world demand, on the one hand, higher salaries on the threat of refusing to play; the owners, on the other, refuse the increases as a matter of course and wait for things to happen. The real art for all participants is to know when to give in and to what extent.

It is not at all surprising that the Deans have taken a fling at this variation of the ancient and honorable sport. It would be surprising in the extreme if both or either of them are missing from the lineup when the playing gets under way.

THE ULTIMATE HAT

Oracle though we may be on many a matter, this department has never attempted to speak with authority or even conviction on what women wear. Both the wearer and what is worn are fairly mysterious subjects, the latter, if that is possible, being even more unaccountable than the former. Nevertheless, when spring arrives important duties descend upon us and one of them is to advise our readers what to expect in the way of female attire. We dispose of the subject in a word. The obvious, the only thing to expect is the worst.

Actually, the situation is more disturbing this spring than usual and for the customary reason: hats. We are advised that the spring of 1936 will witness the ultimate hat. Hats in the future can go no further. The top in tops for women has been arrived at. Henceforth and perforce the scale will be descending until, perhaps, in some distant year a sensible hat will be seen again. That is no help now. For the present, or at least in the very near future, women must wear and men must look at such a hat as was never seen before. We don't know which sex to pity more.

The rest of our advice on women concern parasols. Parasols are la mode this spring. We can't help it; we merely mention it. To the injury of the hat is added the insult of the parasol. There is but one ray of light. We look forward, longingly, to the day a lady becomes hopelessly entangled in these traps of the fashion dictators' devising, and strolls down the street with parasol on her head and hat in her hand.

THE TAXPAYERS' PRINTING BILL

Everybody who is on the government's mailing list, has been impressed since the New Deal took hold by the enormous addition to the amount of printed matter with the Washington postmark that has been delivered at his door. Many have wondered what the aggregate output of the government printing office must be, for only a fraction reaches the average householder, and how much all this paper and ink and labor is costing him and his fellow taxpayers.

Between July 1, 1933, and December 31, 1935, it amounted to nearly \$38,000,000 and only about \$6,500,000 of this was chargeable to congress and the Congressional Record. Last year the printing bill was \$16,465,000, an increase of \$3,500,000 over 1934. New Deal agencies set up since March 4, 1933, spent \$1,862,000 for printing in 1934 and \$3,164,000 in 1935. For the first six months of this fiscal year the figure was \$1,895,000—still going up.

Last year the Public Printer turned out 146,293,836 copies of documents, exclusive of 4,698,578 copies of the Congressional Record. The Department of Agriculture and the AAA ordered 40,000,000 pieces of printing last year. The Federal Housing Administration was content with 26,821,000 and the late NRA used only 14,000,000 or so.

The taxpayer has had to dig down in his pocket for a lot of cleverly written propaganda designed to make him more contented with his lot and more appreciative of the burdens laid upon him by the New Deal for his own good. But it is possible that he would prefer to choose all his own reading matter, since he has to pay for it in the end.

When we are horrified by the crime of war, it is a good sign. It means we are not mad at anybody.

Every cause needs two leaders: A builder to do the work and a bad-name caller to draw the crowd.

It must be awful to own the best car on the market and not be able to wish you had a better one.

It is a rather unfortunate person whose happiness depends on the interest other folks take in him.

Why is it a man never thinks a hat is really comfortable until it begins to look as if he had made it himself?

Matters Of Money.
Crude English Justice.
War On Religion.
3 Wistful Penguins.
By ARTHUR BRISBANE

EUROPE REPORTS "Italy adamant against sanctions." Mussolini has got acquainted with them in Ethiopia, will refuse to exercise them against Germany.

Paris, said to be worried by Uncle Sam's absence from the League of Nations, shares that worry with all the Locarno Pact nations. They calculated that, if they employ sanctions, refusing to deal with Germany, that might send more than six hundred million dollars worth of business to the United States, which would be deplorable.

WHILE EUROPE TALKS WAR, this country is reminded that the best thing to do when Europe fights is to keep out. In accordance with custom, foreign nations to whom Uncle Sam lent billions on their interesting "word of honor" again skip the mythical periodical payment of the principal and interest. The amount owing now is 14 thousand million dollars.

The country could do many things with that money, if it had it.

IN ENGLAND, Dr. Buck Ruxton, throttled his wife, cut up her body, threw the pieces into a ravine called the "Devil's Beef-tub."

In 62 minutes the jury convicted him, in about three weeks he will be "hanged by the neck until dead." No lady send him flowers; if she did, he would not get them. No important politician will visit his cell to sympathize and see if something can't be done.

In England they catch them, try them, and hang them all in a few weeks.

A system hard on the criminal, compared with our methods.

IN SPAIN, mobs continue setting fire to churches, monasteries and convents, according to Associated Press, shouting "burn all the Pope's property." If they did that, they would burn some of the world's oldest universities that attracted students from all parts of Europe in the days of Spanish greatness.

In all history there is no stranger development than the sudden rebellion against religion and the Pope.

DID YOU KNOW THIS?

SHUT YOUR EYES, and I'll stand behind you with fifty-cent pieces in my hands. (If necessary, I might borrow them from you.) I'll click them together a few inches from your head and you point to the place where you think I clicked them. I'll click them at the back of your neck—directly over your head—right in front of your eyes, your nose, your chin, your chest—and you point every time I click.

You'll be sure you know just where the clicking is coming from, and you will be mistaken. You will make such errors that other persons in the room will laugh. They'll imagine that they can do what you can't do and they eagerly make the test.

I'll do the same stunt with them, and then YOU will have the chance to laugh—because they'll make the same mistakes you did. Then you try it on me and I'll not be any cleverer than you were. . . . I'll locate every click directly behind my neck. I know that because I tried that test once and failed as completely as everybody else did.

I learned that ears can't tell me where a sound comes from unless those ears are helped by my eyes. And neither can YOUR ears. But I learned more than this from that little experiment. As our ears must be helped by our eyes, so must the brain be helped by the heart.

We talk as if all our problems can be solved by our minds, as if we could THINK everything through satisfactorily. But that's not true. The wisest of our decisions are not made by the brain, but by our emotions.

The brain says, "Be logical!" The heart says, "Be friendly!" The brain says, "Look out for No. 1!" The heart says, "Sacrifice a little!"

The brain says, "Save yourself!" The heart says, "Be loving!" The brain does not always know where our comforts and blessings are to be found, but the heart always knows. You can deceive your eyes, your ears, your brain, but your heart can never be fooled for long.

AUNT SOPHRONY WINKLE TOOK A LARGE BOTTLE OF BLUING TO THE BIG CITY

Hints and Dints

Sun sets tonight 6:07. Sun rises tomorrow 6:09.

In a letter to Senator Holt, Democrat, of West Virginia, Administrator Harry L. Hopkins flatly denies that politics has played a part in the selection of relief workers in West Virginia. We imagine Boss Farley would say the same thing, which would make it unanimous.

The past winter has been an expensive one in keeping streets and highways clear of snow. Sweeping snow is one form of activity where you don't seem to get anything for what you do. It's worse than cleaning house for you at least get to smell the suds, and the old shav generally looks a little more inviting. But when you sweep the beautiful snow off the roads you get nothing but a pain in the back.

There is a lot of flippant talk about billions these days but few people have any idea what a billion dollars means. If you were to count silver dollars at the rate of 90 a minute, working ten hours a day and three hundred days a year, it would take you nearly 62 years to count one billion dollars. In other words if you began counting on your twenty-first birthday you would be almost 83 years old by the time you finished your first billion. And if you started to count the national debt of around \$25,000,000,000, well, figure it out for yourself, it gives us a headache.

Along about this time every year the bug department down at Harrisburg "views with alarm" the possibility of a scourge of seventeen year locusts. The annual warning was issued this week. It is catalogued as "Brood X" Any other brood would be bad enough, so it's nothing to brood over.

Another Pittsburgher has been given a year in the workhouse for accepting relief while he had a sizeable bank roll. The court seems to think that a man who draws relief money, with a savings account in the bank, is no better than a thief, and the court is right.

Another way to save a lot of time would be to hang all telephones too high to reach from a chair.

A woman is a person who can play bridge all day to kill time while waiting for a bridge party.

Ships that pass in the night have nothing on ships that pass the proof-reader. Here is one from a Rhode Island paper: "If you are serious about reducing your hips, you'll watch your diet. No rich desserts and a minimum of salaries." That ought to do it or at least help a lot.

It's a lot easier getting up in the morning when you hear a robin singing, and if there are two robins, well it's no trick at all. We know a north hill man who aroused the family when he heard the familiar notes. Robins can't put on what you might call a high-brow concert but their songs give us an optimistic feeling along about this time of year.

WOMAN'S WILL

Men, dying make their wills, but wives
Escapes a task so sad;
Why should they make what all their lives

The fact that riches have wings does not help a man to feather his own nest.

The government may accomplish crop reduction by ploughing under, but it seems entirely helpless in reducing the number of candidates who run for office. When the Pennsylvania state elections bureau closed its books to nominating peti-

tions, 2,526 persons had recorded their intentions of seeking office. No matter how unsuccessful you may have been in your own business, you can always run the state.

The girl next door says that marriage is no handicap nowadays—it's more like a relay race.

WRONG GIRL

"I'd like to kiss you until you hollered stop!"
"Well, I guess you picked the wrong girl this time."
"You mean you wouldn't let me kiss you?"
"No, I mean I wouldn't holler stop!"

The time when a girl looks her best, is when a nice looking young man with money is in sight.

The easiest way to start an argument is to express sympathy for one person in the hearing of another who feels equally deserving.

It has been rumored that dresses will be made to express the mood of the women who wear them. However, it's practically impossible to expect a girl to keep changing her clothes all day.

In 1908 George McCutcheon of Texas was bitten by a dog. Last week he felt pain near the old scar, and went to a hospital. Doctors removed a tooth from his hip. Moral: When a dog bites you see that the leaves no souvenirs.

It is easy to pick out the future leading citizens. They inherit \$800 and don't buy a car.

One person in each eight will have an accident this year. The other seven have accident insurance.

Up to now, the only thing that the various nations of the world have agreed upon is the calendar.

Strange as it may seem, the only way to get help from your friends is to get yourself into a position where you don't need it.

Well, anyhow, there are a lot of people who wished they had forgotten about Europe for a while and finished figuring out their income tax report.

"Don't blame the radio for bad weather," says a newspaper headline. We don't, but we're looking for something to blame for radio.

DUSHERS

Two little West Side girls had been to their first movie and returned home entranced by the sights and wonders. One of them was a little puzzled however and finally asked the other:

"But who was the man who walked down to the seats with us and then turned around and left?"
"Oh, that was the usher," said the other little girl, proud that her knowledge was greater than her friends.

"But why do they call him an usher?" was the query.

"Well, somebody's got to keep people quiet don't they?"

About the only difference between a so-called statesman of Europe and a small child, is that you can spank a child for playing with matches.

Many of these women who yearn for a return of the picture hat forget that it takes the right kind of a face to complete the picture.

When nations get hot under the collar over territorial rights, it isn't the heat, it's the cupidry.

With the opening of spring the dangerous practice of children roller skating on the streets has been resumed. This is both an annoyance to a neighborhood and a menace to

the lives of the children. If children are to use the streets as skating rinks, certain streets ought to be roped off, the same as for coasting.

REASON ENOUGH

"Why don't you close your eyes when I kiss you?"
"I'd like to, but I have to watch out for pa."

Most big husbands are amiable men, and most small ones have to be.

It won't be long now until things will be coming up in the garden, thanks to the neighbors' pets.

The mind may get smarter, but the stomach doesn't. A young stomach sends back what it doesn't like.

Ideal company is the kind not dumb enough to be boring and not smart enough to think you dumb.

You can tell when you have started downhill. The world seems to be going to the dogs.

Money doesn't change character. If they are hateful while poor, they are hateful in another way when they get rich.

You get the second lesson in the school of experience when you say: "Well, if I don't have to pay cash, I'll take it."

Americanism: Despising a little man who tells lies; thinking no less of a great man when he "officially denies" something true.

What are the important things in life? Well, the bathroom and the kitchen are the only rooms improved in this age of progress.

Good Taste

DEAR MISS MARKEL—My husband and I are to give a dinner-dance. If any of our guests do not dance, should my husband and I refrain from dancing all evening and sit with them? Mrs. H.J.S.

Answer—Of course, if there is only one nondancer among your guests, either you or your husband should remain with him or her while the others are dancing. It would be decidedly rude for both of you to go off and leave this guest entirely alone. But if there are two or three nondancers (who may entertain one another while every one else is away from the table), you and your husband may feel free to leave the table and dance every dance.

But why invite to a dinner-dance people who do not enjoy dancing? By so doing, you are simply spoiling your own party for the one who should enjoy it most—yourself. Free yourself from the idea that it is your duty to invite to parties people who, because they are misfits, will bring misery to themselves as well as to all others present.

CLEVELAND, O., Mar. 16.—Former President Hoover has made no hotel reservations for attendance at the Republican national convention. But Governor Landon of Kansas, Colonel Knox of Chicago and Senator Vandenberg of Michigan have. Undoubtedly Senator Borah of Utah will be on hand.

Mr. Hoover seemed to disappear as a potential nominee when Governor Merriam of his home state of California declared for Governor Landon.

Matters are moving slowly toward arrangements for the Cleveland convention. Chairman Farley's wheels seem to move more smoothly for the Democratic convention in Philadelphia.

The convention hall in Cleveland—a massive affair—will be cleaned and repaired inside. Work will begin in a few days—with WPA funds allotted by the Roosevelt administration to the tune of more than \$300,000, for the benefit of the Republicans (Cleveland itself will add some to that).

Not only the Republicans but the Socialists will benefit from the WPA expenditure. The national convention of the Socialists—in the same hall—will precede that of the Republicans.

Even the Socialists will have fireworks. There is a left wing and a right wing.

And Communists may walk up and down the streets in front of the huge auditorium denouncing the Socialists for being reactionaries. Goodness knows what the Communists will say of the Republicans.

IN MARBLE HALLS

Within, the convention structure is blessed with marble halls.

And one of its auditoriums, a music hall, has soft carpets and beautiful drapes. This will be thrown open, through its stage, which has a disappearing wall, with the main convention hall.

Thus, both Socialists and Republicans will orate on the state of the nation from a scene indicating that some towns at least spend a great many million dollars on public halls.

A CITY OF MUSIC

Cleveland abounds in plain halls and music halls.

The music hall in which its symphony orchestra and its opera have their home is "a thing of beauty to behold."

None of the halls (one has the distinction of being entirely underground—under the Mall) is equivalent to one in the outdoors, in the heart of the city. Cleveland's Public Square is a place of public speech unfettered. Only one mayor

Al Smith says the National Administration, forgetful of all pre-election promises has increased the "Housekeeping Expenses" of the Government, to say nothing of the tremendous increases in expenditures occasioned by the creation of so many Alphabetical Bureaus.

One of the "Housekeeping Expenses" is sometimes forgotten. It is the cost of carrying Congressmen to and fro and even before Congress in its new session got down to the business of lawmaking, January 3, it had run up a bill of \$220,000. This is the amount members drew from the government for traveling expenses to Washington and back home again. They are privileged to collect their traveling costs home in advance.

Of this amount, \$175,000 represented mileage of representatives and \$45,000 for Senators. All members are entitled to a mile for whatever distance they travel from their homes to Washington and back.

And now the Interstate Commerce Commission has decreed cheaper fares on the railroads.

Oh, hum!

MONDAY, MARCH 16

Notable Nativities—Harrison Williams, b. 1873, utilities magnate and husband of Mona Strader Schlesinger Bush Williams, famed as a "Best Dressed Woman" . . . William B. Stout, b. 1890, automotive and aeronautic designer . . . Elsie Bierbauer Wilson, known as "Elsie Janis," b. 1890, actress and writer who married a man 15 years younger . . . E. M. Newman, b. 1872, traveler and lecturer . . . Percy Mackaye, b. 1875, dramatist and poet . . . Mirza Rosa Pahlevi, b. 1878, shah of Iran (Persia) where his birthday was celebrated yesterday so there wouldn't be any interference with work today.

Today's Yesterdays—March 16, 1618—Burbage existed.

Short, fat Richard Burbage died at 52, the greatest actor of his time, and was buried in a churchyard at Shoreditch, where in compliance with his wish, his gravestone was inscribed simply, "Exit Burbage."

He made Shakespeare's famous, but he is remembered today only because he acted in Shakespeare's plays.

March 16, 1751—James Madison was born in Port Conway, Virginia, the first of 12 children, and in his youth it was his intention to become a minister. The revolution whirled him into politics instead, and it was a fortunate occurrence, for Madison is responsible for the fact that the government is denied any jurisdiction whatever in the matter of religion. He wrote the religious liberty clause into the Bill of Rights.

March 16, 1774—Jethro Wode was born in Dartmouth, Mass., of Quaker parentage, destined to become one of the greatest benefactors of farmers. There had been no important improvement in the plow for a thousand years when Wood developed a plow made entirely, except for the beam and handles, of cast iron, with the various parts cast separately, so that any worn part might be replaced. By endlessly carving wood and potatoes to get what he thought was the exact curve, he produced the best moldboard. (The shape is virtually identical with that of a stubble or pulverizing plow today.)

He was the benefactor of farm wives, too: he evolved the first successful cast-iron cooking range.

It's True—Timely thought: inheritance taxes, not income taxes, are the oldest form of organized taxation. They were collected in Egypt as early as 700 B. C.

Don't believe all you hear about "love of money". There are 250,000

in memory tried to interfere with that free speech—and he was kicked out of office some months later. Here it is that speakers will have their own say while the Republicans are declining in the convention hall a few blocks away.

STEIWER? Rumors persist that Republican "bosses" have "chosen" Senator Frederick Steiwer, of Oregon to be the Republican nominee.

It is becoming more and more questionable, though, whether a "dark horse" sprung at the last moment would be able to get anywhere in the Cleveland convention.

Nobody in Cleveland (among the citizenry) seems to know who Senator Steiwer is.

Well, was was born Oct. 13, 1883 at Jefferson, Marion county, Oregon (this is 52). He is a graduate of Oregon State college and the University of Oregon.

He is a lawyer, and followed the usual course of lawyers, who enter politics. He was district attorney, 1913-16; state senator, 1917; served in the World War (thus might appeal to war veterans), was elected to the senate in 1926 and was re-elected in 1932.

His home is in Portland. He married in 1911, and has two children. He is a conservative Republican.

RECEPTION HONORS MR. AND MRS. GONICK

Temple Israel was the scene of one of the loveliest social events of the season last evening, when Mr. and Mrs. A. H. Gonick of 315 Winter avenue, received friends, relatives and neighbors numbering approximately 250, in celebration of their twenty-fifth wedding anniversary.

The Temple social rooms, were transformed into a bower of beauty, numerous baskets and tall standards of flowers, adorning every nook and corner, making a colorful background for the exquisite formal gowns worn by the women in attendance.

As the guests were greeted by the hosts, they joined in the festivities of the evening. A program of orchestra music was provided, and refreshments were served from an attractively arranged table, appointments of silver and blue predominating.

Mr. and Mrs. Gonick were the recipients of an array of handsome gifts, fitting to the occasion. Guests who were unable to attend, extended congratulations by means of telegrams, cards and floral remembrances, many coming from New York City, Ogdensburg, N. Y., Watertown, N. Y., California and other places.

SMALL PAYERS MORE HONEST

Central Press Washington Bureau 1900 S Street
By CHARLES P. STEWART
Central Press Staff Writer

WASHINGTON, Mar. 16.—A couple of years ago the internal revenue bureau arrived at the conclusion that Uncle Sam could scoop in a snug sum of money by rounding up small evasions of income tax payments.

It was recognized that collections, on account of these supposed derelictions, would amount to only a little in each individual case, but it was calculated that the total, the pewee payers being relatively so numerous, and presumably being as evasive, in proportion, as multi-millionaires, would run high into eight or nine figures.

A regular campaign was launched, with a view to squeezing out the last cent due to the government. It was announced in advance in an

interview or so by Internal Revenue Commissioner Buy T. Helvering. Then local collectors did, in fact, get after suspected delinquents with a sharp stick.

YIELD DISAPPOINTING?

How much they raked in by this fine-tooth-comb process I don't know; that part of the story never was told.

I surmise that the yield was disappointing, or the internal revenue bureau would have bragged about it. Instead, after making the experiment, it dropped the subject.

However, there is no question that the thing was tried. Not only did Commissioner Helvering give warning of it: I was hooked myself, as a suspect. Far from having a delinquency "pinned" on me, I subsequently got a rebate, having accidentally made an overpayment. Parenthetically, that was the same year when J. P. Morgan paid no income tax whatever, having shown losses sufficient to offset it—though he did pay a tax in England, as testified to before the Senate banking and currency committee.

A GOOD IDEA

Anyway, this year, for the first time, the National Press club, a pretty formidable organization of Washington newspaper men, engaged an expert to advise its membership how to make out their income tax returns.

He had a desk in the club lounge and all hands, running into the hundreds, consulted him. Similar assistance was available at the internal revenue bureau and at the various banks around town, but it's terribly inconvenient for the average small taxpayer to stand in line indefinitely for such help; he generally takes the chance of preparing his return unassisted.

INSUFFICIENT EXEMPTIONS

It was a bright idea, but, in one respect defective; the expert did not make his appearance until half or more of the club members had already filed their returns. He suggested that their copies be submitted to him, and many were. In most cases it immediately was apparent that the authors of the returns had overstated their taxable liabilities; they had not taken advantage of legal exemptions, deductions, et cetera.

SMALL TAXPAYER HIT

And these Press club folk are tolerably sophisticated; if they're baffled by an income tax blank anybody may be.

Yet they're very small payers, mostly.

The impression I get is that the small payer is, perhaps, not more honest, but more reliable than the big one. Possibly he would like to dodge, but he's afraid to; it isn't worth his while, either. The big one has legal advice, and it is worth HIS while also.

FOR DIGESTION'S SAKE, SMOKE CAMELS

L'AIGLON, IN CHICAGO, RENOWNED FOR ITS CONTINENTAL CHARM AND CUISINE. In this famous and delightful place, known for years to connoisseurs, Camel cigarettes are a popular favorite with diners. "Teddy," (left) genial host to the lively crowd you see in the picture above, says: "We find our patrons know not only good cooking, they know good tobacco. Camels are the most popular cigarette among L'Aiglon guests."

150-POUND DYNAMO! Tommy Bridges, of the World Champion Tigers, says: "Ball players have to watch digestion. I find Camels a real aid in helping digestion. They set me right!"

WIZARD ON SKIS, Sig Buchmayr, says: "It seems to me that after good food there's nothing like smoking a Camel to aid digestion and build up a fine feeling of well-being."

STEEPLEJACK JOE BECK: "Many a time my stomach tightens in a high spot—but you wouldn't know it from the hearty way I eat. I'm very careful about keeping good digestion—I smoke Camels. They help to stimulate my digestion."

Smoking Camels eases tension—stimulates digestion—and fosters a feeling of well-being! . . .

Again and again, we make up for lost time by eating in a hurry. Digestion must meet the strain. How fortunate that smoking Camels during and after meals definitely stimulates digestion and helps to ward off the effects of our hurried, nerve-racking life—by aiding and restoring the natural flow of the digestive fluids. Today, the pleasure of smoking Camels is being everywhere recognized as a comforting and healthful part of the art of dining. Camels are incomparably mild. They never get on your nerves or tire

your taste. Enjoy Camels for their matchless blend of costlier tobaccos—for their energizing "lift"—for the welcome feeling of well-being they bring you. Camels set you right!

COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

EXCEPTIONAL CHILDREN

I want to tell you about some things I learned at the 14th convention of the International Council for Exceptional Children, in Chicago, in which I participated.

We visited special schools in that city—for the blind and dull of vision, for the deaf and hard of hearing, crippled, mentally retarded and those socially maladjusted. Groups of children from these special schools also came to the convention and gave us demonstrations of their work.

Now you and I cannot witness such efforts by and for handicapped children without being inspired with what is being done to help them. Making the most of themselves, of helping them feel that they are not really different from other children; inspired also by the patient, sympathetic and kind-hearted souls who work with and for these children.

I must confess that I feel spiritually uplifted every year as I attend this convention. The kind of folk who assemble from all parts of Canada and the United States strike me as possessing more than the usual portion of love for their fellow human beings.

The eminent Dr. Kimball Young, of Wisconsin university, reminded us that the exceptional child's problems are not fundamentally different from those of other children—just more intense, perhaps. And if you ever have an opportunity to hear that man speak, do hear him.

President Re-elected.

Dr. Harry Baker, our president, whom we re-elected, clinical psychologist for the schools of Detroit, and internationally known for his contributions to the psychology of exceptional children, emphasized the need of some training of all teachers in recognizing and understanding the problems of exceptional children. He pointed out, moreover, that with 10,000,000 handicapped children in the United States, only 1,000,000 of whom were given reasonably adequate education, we need to think of our exceptional children as social obligations.

Dr. Samuel Leycock of the University of Saskatchewan, Canada, urged that all regular teachers visit, for their own education, the special classes in their respective school systems.

Now I wish I had space to tell you

of Marion McLeod, who, from the state department of education of Wyoming, drives all over that big state to remotest places in the interest of the individual child who needs special education; of May Bryne, supervisor of special education in Minneapolis; of Prof. Charles M. Elliott, who has pioneered at the Teachers' college of Ypsilanti, Mich., in training teachers for all sorts of handicapped children; of Dr. Charles Scott Berry, director of special education at Ohio State university; of Dr. Elmore Reaman, eminent psychologist of Toronto, Canada, author of the personality rating chart just published, only to mention a few of the representatives in this worthy cause.

Scientists have never been able to ascertain why moths and millers are attracted by a light. This is doubly hard to understand because of the fact that these insects hide themselves away from the light during the daytime and seem to be attracted only by artificial light.

Funds in the county treasury are again running low, according to County Controller Frank W. Hill. There is now but \$7,281 in the general fund and \$6,290 in the poor fund. As it will be some time yet before tax cards for 1936 will be sent out it looks as though the county commissioners will have to borrow money to tide them over until the new money begins to come in. The county has already borrowed \$100,000, over half of which had to be used in paying up old bills.

Improvement of the Potter run road in Washington township, leading from the East Brook-Volant road to the Perry highway, will be undertaken this summer provided releases from any damages that may result, are secured from all the property owners. Superintendent John Shaw of the state highway department reports that nearly all of the land owners along the road have already signed releases, and it is believed that all sign up the work will not be undertaken. The stretch to be improved is about two miles.

Since the new marriage license law went into effect there has been a big falling off in the number of marriage licenses issued at the county clerk's office. Most of the Ohio couples who used to come here now

where it will connect up with the Pinchot road, leading from Volant to the Perry highway at Leesburg.

Prothonotary John A. Edgar reports that there have been a large number of applicants recently for preliminary naturalization papers. Many of those who are applying have been residents here for years, but have never applied for citizenship papers. It is believed that the prospects of a pension is the impelling force behind the rush of applications. There was a class of 70 examined recently.

Registration of chicken brands at the sheriff's office does not appear to have broken up poultry thefts in Lawrence county, although there does not appear to be as many chickens lost as there were before the registration was started. Two alleged chicken thieves were recently arrested in the Enon district, and thefts have been reported in Pulaski township. None of the registered stock was found in the possession of the men arrested near Enon. They are believed to have belonged to a gang with headquarters in Ohio.

Al Smith Just Marking Time

Awaits Opportune Time To Enter Campaign Against Roosevelt

OTHER FOES ARE DELAYING ACTION

By JAMES L. KILGALLAN
International News Service Staff Correspondent

NEW YORK, March 16.—Al Smith is "marking time." So is former governor Joseph B. Ely of Massachusetts another foe of President Roosevelt and a prominent figure in the anti-administration eastern bloc.

In fact all the anti-Roosevelt "constitutional" Democrats including Smith, Ely, former Senator James A. Reed of Missouri, John J. Raskob and John W. Davis are "pulling their punches" at present, waiting for a "lead" from Mr. Roosevelt. But inasmuch as no such lead is whizzing across at this early stage of the 1936 political battle a full before the storm is forecast.

Back From Palm Beach
Smith back from Palm Beach, where he was royally entertained by society, is mum on politics. And he will continue so, it was indicated today, until the national Democratic convention if Mr. Roosevelt persists in his policy of refraining from taking any notice of Al's widely-publicized American liberty league speech.

But Al Smith is not folding up. His confidantes say that if the Democratic platform proves to be an endorsement of the Administration Smith will make good his threat to "take a walk." It can only be presumed at this juncture that Ely, Raskob, Davis, Reed and others will take a stroll with him.

The passing of Governor Albert C. Ritchie, another pillar of the anti-administration forces, was a distinct blow to the faction within the Democratic party which planned to make it difficult for Jim Farley in his campaign to put Roosevelt across for re-election.

Discuss Situation
Smith, Ely, Reed and J. J. Shouse, president of the American

Liberty League, discussed the whole situation at a meeting here recently. But, contrary to reports, they reached no decision to back any candidate at the forthcoming Democratic convention in Philadelphia. Either did they decide to definitely promote a third party movement at this time.

The immediate procedure is to "stand by," to keep sniping at the administration until Mr. Roosevelt is made to declare himself on the various points raised by Al Smith in his Liberty League speech. They want Roosevelt to answer two questions:

1.—Is he in favor of continuance of his administration's policies? or—
2.—Does he believe the economic emergency has passed and is now in favor of a trend back to "constitutional" government?

W. P. A. Leaders Must Not Enter Political Race

Executives, supervisors or foremen of the Works Progress Administration who are candidates for public office in the coming election must sever their connection with the WPA according to a statement today by Director J. Vale Downie.

Workers on projects who are candidates will not be affected by the order said Mr. Downie. The order is in line with the recent state order requiring executives and those in supervisory work to resign if they are candidates.

The order has little bearing in the local situation none of the executives, supervisors or foremen being candidates.

W. P. A. Forces To Be Reduced Soon

Following the lead of the Harrisburg office of the Works Progress Administration the forces of district 14 will be cut about 15 per cent in the near future it is expected by Director J. Vale Downie.

While no announcement has been made as yet concerning the reduction in forces it is known that the reduction will mean the removal of 712 workers from projects in Lawrence County.

POLICE SAVE PART OF BUTLER MAN'S ROLL

Jack Thompson farmer, Butler vicinity, fell into the hands of police Saturday night on a charge of drunkenness and it is fortunate that he did, otherwise he would have had less than \$44.00 of the original \$100 with which he fortified himself before he came here police say.

Thompson got a room at a hotel then started drinking and meeting "friends" in another hotel. When police got him he had \$44.00. Thompson admitted spending some money. He was nonchalant about the loss. He paid a fine of \$5.00 in police court.

Three Men Dead In Gun Battles

Three Others Wounded As Result Of New York Gun Fights

ONE OF VICTIMS IS POLICEMAN

(International News Service)
NEW YORK, Mar. 16.—Three men were dead, one of them a policeman, and three others lay gravely wounded today as a result of gun battles on three New York "fronts" over the week-end.

Joseph Butler, alleged "czar" of west side dock walkways, was shot and killed in a Hell's Kitchen parking lot. Robert Baker, 24, and John O'Rourke, 36, were seriously wounded at the same time.

Robert Sullivan, who has a record of 13 arrests, three in connection with killings, was locked up as a material witness to the shooting. He denied all connection with it.

In a gun duel following a bar-room quarrel, a fatally wounded policeman lay on the sidewalk and fired a bullet which ended the life of his assailant. The policeman was John B. Pasquella. As he lay dying, Pasquella, noted for his marksmanship, sent a bullet through the neck of Joseph Blasi, 31, killing him instantly.

Patrolman William Parsons shot and seriously wounded Steven Greogorek when he allegedly caught him attempting to steal an automobile.

Father Of Eight Children Dies Following "Mystery" Blow On Head

(International News Service)
BUTLER, Pa., Mar. 16.—Authorities today instituted an investigation into the death of Frank Laskewicz, 48, father of eight children, who died as a result of a fractured skull believed to have been received at a beer tavern Saturday night.

Returning home after visiting the tavern, Laskewicz, police reported, complained to his wife of pains in the head. Unable to sleep he told his wife, after she had accused him of being drunk, according to police, that he had been "slugged." He moaned:

"Why did they do that to me? Some one hit me and I didn't do anything to them."

He then lapsed into a coma and died several hours later. Police officers indicated they will question every known patron who visited the tavern that night.

church in countries formerly intensely religious—Spain, Mexico, Russia.

APART FROM POLITICS, radicalism, atheism, and all "isms" it is hard to believe that the most violent mob would destroy beautiful ancient monuments erected by the Catholic church, for instance, the old Church of Jesus, near Madrid's parliament building, one of the most interesting historically.

No one could imagine Frenchmen tearing down Notre Dame, or Italians destroying St. Peter's, with its magnificent Sistine chapel, monuments to the genius of Michelangelo, whose name honors all Italy.

THREE WISTFUL PENGUINS, their white throats and black tails making them look like diffident youth in its "first white tie and tails," now in Miami's aquarium, are sorrowful. They miss the desolate beach of a small Galapagos Island. The cheerful beach of Miami cannot comfort them.

Think how unhappy frequenters of the latter beach would be if suddenly transferred to the Galapagos.

Think, too, of the amazement that would fill the little penguin mind if it could stroll on that Miami beach, seeing and understanding its pleasure seekers, particularly the fattest ladies, in the shortest, "most open backed" bathing suits.

Among queer things in this world the penguin is not the queerest.

FROM THE HOUSE OF COMMONS gallery a lady shouting "we appeal to womanhood to stop war" tossed bundles of papers over the railing. She was dragged out, shrieking "you are worse than ostriches, you've got no sense."

Col. Frank B. Shute, publisher of a Miami newspaper, remarks on his editorial page, "that was an insult to womanhood to stop war."

Ladies can "prevent war" only by producing sons that will not fight. That is a long way off. If war came the same lady would be knitting socks and denouncing the enemy.

IN THE CHURCH built in memory of William Jennings Bryan a memorial service will be held today, recalling Bryan's "enduring idealism." If he could return, Bryan would be interested in the silver situation, China driven off the silver basis, by our high silver prices, nobody in America allowed to have any gold except in his teeth and watch pocket; Uncle Sam's biggest gold supply on earth buried in a hole for safe keeping, with paper dollars worth 59 cents. The world today knows as much about money as in Bryan's day, which is NOTHING.

GABRIELLE D'ANNUNZIO, 72, ill of pneumonia, reminds the world that in an emergency one thinker may have importance greater than that of regiment or cannon.

When Mussolini was a French soldier D'Annunzio was flying over Austria dropping leaflets, urging Italy toward the allies.

His influence was greater than that of Germany's "big bertha."

THE YOUNG FRENCHMAN ROUGET DE LISLE, who wrote the words, "Marseillaise" created much of the enthusiasm that enabled France to defy Europe.

The fact that he had written that hymn saved his neck from the guillotine.

Fear Trouble In Strike At Akron

Peace Efforts Collapse And Rubber Plants Make Plans To Reopen

PICKET LINES ARE TIGHTENED

(International News Service)

AKRON, O., Mar. 16.—Steadily growing picket lines tightened around the three strike-closed Good-year Tire & Rubber company plants here today as all peace efforts collapsed and reports spread the company would attempt to reopen its factories some time during the day.

The situation grew more critical hourly and serious trouble was anticipated if any attempt is made to break the strike blockade. The crowd outside the plants this morning was estimated at more than 5,000.

Confer With Governor.
A newly-formed law and order league, directed by C. Nelson Sparks, former mayor, claimed its membership totaled 6,000 last night and would climb to 50,000 by tonight. Its avowed purpose was to combat the strike.

An Akron delegation was reported enroute to Columbus to confer with Gov. Martin L. Davey concerning the strike troubles here.

Farley Begins 1936 Campaign

Entire Floor Of New York
Building Taken Over For
Headquarters

ROOSEVELT DRIVE
NOW UNDER WAY

By JAMES L. KILGALLAN
International News Service Staff
Correspondent

NEW YORK, Mar. 16.—Jim Farley is wasting no time, even though the 1936 national political campaign has only begun to warm up.

Down at 200 Madison avenue, the Combustion Engineers building, the Democratic national committee has taken over the entire eighth floor and already campaign literature is being sent out to the country.

Automatic addressograph machines chugged away today addressing large envelopes into which were placed copies of a speech made by Hon. James A. Farley entitled "Three Years of Roosevelt". In a short time new equipment will be installed.

Only a few employees, with W. M. Churchill of Washington in charge, are now at work in the large, barn-like eighth floor but by July 1, according to Churchill, between 200 and 250 employees will be on the job doing their bit in making the country "Roosevelt conscious".

Card index systems, containing names from all over the country, have been taken to this building from the old 1932 mailing headquarters at 331 Madison avenue and in the Liggett building. The 1936 layout, to be known as the "organization department", will be concentrated and much more elaborate when it is working full blast in a few months.

Piled high on the floor of the new headquarters today were 75 or more bulky mail bags, attached to which were tags bearing the name of a United States senator in the said, however, they were not mailed to New York. They were brought here from Washington by truck and contain records and other material for use in the campaign.

Art Work Display At Westminster

Large Showing Of Paintings,
Crayon Sketches, Etc.,
Being Shown

(Special To The News)

NEW WILMINGTON, Mar. 16.—A chance to see the best of art work done in government relief camps will be made possible at Westminster college up to March 28, as a large showing of oils, water colors and crayon sketches is being shown in the commuters' room, open to the general public.

The works reflect the humor and feelings of young men working in government relief camps. In all cases artists were allowed to portray their feelings freely, criticizing or lauding the government work-relief idea. Scenes range from potato-peeling on kitchen kitchen work to bridge-building.

Strength and masculinity characterize the exhibit, with subject matter limited entirely to men at manual work or in moments of leisure. The work as a whole is a pictorial history of an average day in one of the hundreds of relief camps established over the country by federal authorities.

The exhibit of 24 pieces will be characterized by vivid colors and great variety of type. Professor Harold J. Brennan, head of the department of art, will arrange the exhibit.

PLAN FUNERAL FOR PRINCE SERGE MDIVANI

Prince Killed In Polo Game

Accident Is Witnessed By
His Bride Of Only Few
Weeks

SECOND OF BROTHERS IN FATAL ACCIDENT

(International News Service)
—PALM BEACH, Fla., Mar. 16.—The mortal remains of Prince Serge Mdivani, second of the three famous Georgian princelings to meet death violently and accidentally, will be buried in Newport, R. I., on Thursday or Friday, according to information today.

The prince who was killed on the polo field here yesterday before the horrified gaze of his bride of a few weeks, Louise Astor Van Alen, will be interred in the burial plot of his wife's family in Newport, according to present plans.

Princess Grief Stricken
The princess, stunned and grief-stricken, kept herself hidden from all questioners last night and today and other members of her family followed suit. It is understood she will accompany the body of her husband on its northward journey.

Last August the youngest of the three dashing Mdivanis whose romantic exploits set feminine hearts fluttering on both sides of the Atlantic, Alexis, was killed in an automobile accident in Spain. He had been divorced a few months previously by the former Barbara Hut-ton, Woolworth heiress, who married Count Court Von Haugwitz-Reventlow of Denmark.

Married February 8
Serge Mdivani married Miss Van Alen on February 8. She had previously been married to and divorced from Alexis and it was said that Serge fell in love with his sister-in-law while trying to effect a reconciliation between her and his brother.

The only surviving member of the Mdivani trio, Prince David, was aboard the Ile De France, bound for Europe, today. He sailed from New York Saturday. A radiogram informed him of his brother's death and he was expected to catch another ship at Havre and return to America immediately.

A peaked crown with a flippant feather tops the smartly casual velvet hat, which is suitable for town or country wear, with tweeds or furs. It is being shown in black, brown, red, billiard green, wine and navy.

French Sounds Warning On Dogs

Secretary French Threatens
State-wide Quarantine
On Dogs

(International News Service)
HARRISBURG, Mar. 16.—Local health authorities and police officers today held a warning from Secretary of Agriculture J. H. French that unless they enforce the dog law for the prevention of rabies and the protection of human life, it may be necessary to establish a state-wide quarantine on dogs.

Calling upon local officers to co-operate in his request, at least until the end of the 1936 rabies season, French said he had authorized the addition of 14 more men to dog law enforcement work in these counties in which rabies cases have been reported.

Secretary French's warning came shortly after rabies quarantine had been established in Montgomery, Delaware and Bucks counties.

All game protectors have been instructed by the state game commission to co-operate in the program and were told that if a state-wide quarantine is established, they will be forced to destroy uncontrolled and unmuzzled dogs found in the woods.

BRICK BRADFORD—On the Isles Beyond the Ice

by WILLIAM RITT and CLARENCE GRAY

My New York By James Aswell

(Copyright, 1936, by Central Press Assn.)
NEW YORK, Mar. 16.—Theatrics: Evelyn Laye, the blonde cutie from overseas, is framed attractively in a play which lined 'em up for blocks in London—"Sweet Aloes," as brittle a piece of Mayfairish double-talk as ever you saw.

The play, which deals in broad-a-candor with the hush-hush topic of a child born under the rose, as they used to say, is one of those offerings which comes almost as a relief in a season of harsh economics. It is a sort of drawing-room "East Lynne."

It won't, very likely, be a hit, although it passed a pleasant enough evening for your reporter and I pass it along to you in case you are marooned here in Strikeville during the next week or so and wish to escape from the times and the accents around you. Miss Laye, whom I have seen on the screen but never in the flesh, is clearly much prettier than a picture.

George M. Cohan's play, "Dear Old Darling," would no doubt flop resoundingly under any other aegis. Under the expert and often almost mystical gesticulations of Mr. Cohan, the piece, an involved comedy about an immature lass and her "crush" on an elderly playboy, whom she chases around relentlessly to the horror of her family, gets up and walks.

Cohan is worth anybody's time in the showshops, simply to watch. His nervous hands, his volatile eyebrows, his hop-skip-and-jump about the stage assure me of something I have long suspected without articulation: George M. Cohan is one of the world's great masters of pantomime.

Perhaps all great actors and actresses are in reality pantomimists and the words they speak make very little difference as far as totality of effect is concerned. Cohan would be fascinating to watch delivering a Lewis Carroll jingle. Indeed, I wonder he has never delivered one in public, if you count out his play which was very nearly that: the one called "Pigeons and People."

Gramercy Park on a sunny afternoon is a vignette very much to my taste. The place blooms along about

noon, when the nursemaids wheel out their charges, five and six abreast, into the little leafy, high-fenced square.

Only those who live round about the Square have keys to the big gridded gates. Children can be turned loose there, as a result, with perfect confidence that they will neither be kidnapped nor bullied nor run over by a truck.

At two o'clock a strip of sunlight glances down over the high buildings which ring the square. As if by prearranged signal the nurses and children rush for that one warm actinic band and lo! there in a ferment of activity for an hour. Then the light fades and they trickle back to benches and greensward.

The glorious moment is over; even the children look a little older after that—until tomorrow.

A peculiarly loopy and perhaps ancient story is looping through the town, as an epidemic of clean stories spreads:

A man is getting shaved in a barber shop when a lady puts her head in the door and shouts, "Your house is burning down, Mr. Humpdingle!" The man, be-lathered and coatless, one side of his face shaved, rushes to the street with the barber's sheet still attached. He brushes past pedestrians roughly, he knocks children out of the way, he proceeds at a mad pace for ten blocks.

At last, breathless, he halts suddenly and murmurs, "What the dickens am I running for? My name's not Humpdingle!"

Mock Convention Will Be Staged

Students At Westminster To Have Republican Convention, April 20-22

(Special To The News)
NEW WILMINGTON, Mar. 16.—Republicans of the forty-eight states of the Union will not select their candidates for president and vice president until late in June, in Cleveland, O., but the students of Westminster College will anticipate the Cleveland convention by sixty days.

A mock Republican convention will be held on April 20-21-22 with most of the students participating. The convention will be sponsored by the department of political science and public speaking and already the usual log rolling and wire pulling that precedes a convention can be noticed in the college halls and throughout the village.

The number of delegates at the mock convention will not be as large as the regular convention. A number of smaller states have been consolidated so that there will be but 36 state delegations present and these will be smaller in number than what will be seen at Cleveland. A temporary chairman will be chosen, also a permanent chairman. An effort is being made to secure a national figure in the Republican party for the keynote address.

Jailed In Plot
To Secure \$1,000

Letter Claimed Sender Had
Facts On Plot To Kidnap
Barbara Hutton's Baby

By CHARLES A. SMITH
International News Service
Staff Correspondent

LONDON, March 16.—A plot to falsely obtain \$1,000 from the Countess Haugwitz-Reventlow, the former Barbara Hutton, Woolworth heiress, was revealed today with detention of a man in Manchester who claimed he knew of a plan to "kidnap" the Countess' infant son.

The prisoner was one Alfred Molyneux, 31, who, police said, confessed to the plot. He was remanded to jail for one week without bail in Manchester.

In court Molyneux testified he sent a letter to the Countess regarding an alleged "plot" to kidnap and hold for ransom her month-old son, heir to one of America's largest fortunes. Molyneux was charged with asking her \$1,000 to reveal details regarding the mythical plotters.

Count Haugwitz-Reventlow, Danish nobleman, immediately communicated with police in London, where he and his wife and son are living. The "plot" was proved false. Molyneux was alleged to have confessed:

"I wrote the letter in a moment of depression because I was without money and have a wife and two children to support.

"I sincerely regret my action and hope I have not caused the Countess any worry or anxiety."

Why March
Has Many
Dangers

March is considered by many the most dangerous month of the year, because the change of seasons is more than a good many systems can stand.

Occasional sunny days give people a false feeling of security.

Don't be misled! Colds are prevalent now and thousands suffer from the after-effects of earlier colds. It is important that treatment be prompt—and dependable.

Build up your system by taking Father John's Medicine to increase your strength and vigor. This famous body builder has been more than a treatment for colds for over 80 years.

It helps to develop the physique of children and adults who are below par, by increasing weight and building tissue.

NEW CASTLE WINS W.P.I.A.L. CHAMPIONSHIP

Upset Findley In Stadium Saturday By Score Of 39-24

New Castle High "Red Hurricanes" Will Meet St. Marys High Tuesday; First W. P. I. A. L. Crown For Bridenbaughmen Since 1927; George Adams And Johnnie Carik Share Scoring Honors For New Castle; Kerin And Zundel Star For Findley; Small Crowd At Game Saturday; St. Marys Will Be First Big Test In State Championship Playoffs; Game Tuesday Starts At 7:30 O'Clock.

ZOOMING over the big Pitt Stadium floor Saturday night, New Castle High School "Red Hurricane" basketball team captured the W. P. I. A. L. championship or District 7 title, for the first time since 1927, by defeating a doughty little Findley High quintet 39 to 24. The Phil Bridenbaugh machine clicked nicely as it sailed up another notch in the state elimination playoffs. Only a handful of fans was on deck to see the New Castle team assume the throne of the Western Pennsylvania Interscholastic Athletic League.

New Castle's attack was carried by George "Pop" Adams and Johnnie Carik with 20 of the points between them. The former had 11 points and the latter nine points. At no time in the game was New Castle extended. Findley High tried hard, but lacked the finesse and experience of the New Castle boys. It was a clear-cut Class A victory over a Class B team.

ST. Marys Tuesday
The District 7 champions will return to Pittsburgh Tuesday night to battle it out with a powerful St. Marys High team for the right to play in the state championship. The St. Marys team defeated Brookville High to annex honors in District 9 last Friday night. A battle royal is looked for tomorrow night when the school-boys tangle.

New Castle showed real championship caliber in the battle against Findley despite the weak opposition. Had Bridenbaugh wanted the score could have been much larger, but he gave his reserves a chance to play the greater part of the fourth period, after the regulars had run up a 30 to 16 count at the end of the third stanza. The New Castle passing and team play was the best shown so far.

New Castle Takes Lead
Grommes starting at center in place of Eddie Strausbaugh began the scoring for the Castles in the first few seconds of play when he caged a foul. "Chinkie" Dutkin in at forward for New Castle in place of the ailing Dal Mumford sent in a field goal from the side of the court to make it 3 to 0. Drummond made a foul for Findley and Kerin shot a long one to knot the count at 3-3. New Castle promptly turned "on the heat" and Findley never did catch up.

Adams, Carik and Dutkin popped in field goals in rapid order to make it 9 to 3. Covelli added a foul and Drummond made a foul for Findley. Adams plopped one in for New Castle under the hoops and it was 12 to 4. Covelli missed a foul try and Drummond made a foul for

is what New Castle's favorite sons have in abundance.

Courage And Fight
New Castle was practically read out of the Section Three title a month ago and then came along to upset Butler and Beaver Falls to gain the sectional banner. New Castle never figured in the tourney from a Pittsburgh angle, but after a favorable showing 37 to 17 over Latrobe high the boys became inspired to greater heights and have kept going. There is no telling when the end will come, but right now the trail leads to the state championship. There is this matter of St. Marys to settle Tuesday night.

The New Castle guards, Covelli and Adams, had Mister Drummond well in hand all evening and the All-Tourney favorite of a few of the scribes was held to a lone field goal and seven fouls. Kerin and Zundel stole the show from the Findley ace. There is not much left to tell except that Class B certainly learned a lesson Saturday night. It is doubtful if another game of this nature will take place. There is no comparison.

It's back to Pittsburgh tomorrow night and indications point to a packed stadium for the double bargain ball that presents New Castle and St. Marys in the first game and Allegheny, District 8 winners, and Franklin, Borough, District 6 winners, in the second game.

St. Louis Browns Under Hornsby To Finish Up Higher

Hornsby Says "We'll Finish At The Head Of The Second Division At Least"

Takes Castoffs From Other Teams And Makes Real Stars Out Of Them

By DAVIS J. WALSH
International News Service Sports Editor

WEST PALM BEACH, Fla., Mar. 16—It's funny how these ideas pop into your mind, especially since I've just left Manager Rogers Hornsby, of the St. Louis Browns, and some-how I've got to thinking of the common or genus spider. The latter is quite a guy. He lives by the mistakes of others and it has just occurred to me that he starts with nothing except a thin gossamer web that can and does develop surprising tensile strength. It's only a coincidence, of course, but this emanates from the mouth.

But perhaps we should drop all references that are not strictly pertinent, and return to Manager Hornsby, who is in a very bad way right now. He has only got seven-ninths of nothing and that simply will not do. He must have nothing on a full-strength basis or he cannot start the season.

Has Ambition
He thinks he is going to finish at the head of the second division in the American League and I don't know but what I agree with him. So any minute now, I look for him to reach out with a rapacious tentacle, acquire the human items he seeks—even as Rolfe Hemley, Julius Solter, Lvn Lary, Ivy Andrews, Ed Coleman, et al.,..... and thus be completely equipped with outstanding failures for each of the nine positions. After that, everything will be all right.

Right now, Manager Hornsby is looking for a first baseman who will stop being a failure from the very moment he takes the doddering grip by the arm, and confidentially, informs the fellow that he's a ball player. Manager Hornsby knows exactly where the gem is and will snatch it at him greedily the moment his present major league owner permits him to venture too close to the deceptively innocent web.

Burns Hold-Out
"My man, Burns, is holding out," he says, "which is a terrible thing— for Burns. Why, I can't use a first baseman who drives in only about fifty runs. But I hat to tell the guy that if he can make a deal for himself, I hope he can help himself. I know he will help me—by not being in St. Louis next summer. Why, I can play the bag myself, only I won't have to"—and he winked, very knowingly.

The other man he wants, a utility infielder, is with a rival American League club. The latter, he says, can deal or not, as it wishes. He still can finish fifth, with seven-ninths of nothing.

"We'll beat the Senators, Athletics and White Sox," he went on. "Yes, the White Sox. They're coming back where they belong."

Lots Of Hustle
That Whitehead got them up there by winning eight. This time he'll do it right if he wins eight all season. And the Yanks had better have Crosetti and that Dimaggio come thru or they're liable to fall all the way through fourth place."

So saying, he ambled off to look at his pitchers. That's the attractive thing about this ball club. Its marked simplicity. You don't have to look at much; yet it wins a lot of games on the soundness of all foundations, namely, sheer hustle. I went after the man and asked him how he did it.

Managers of teams in the Lawrence County basketball league which has been operating since 1923 will convene at 7:30 P. M. tonight at the Sport Goods store. Plans for 1936 season will be discussed. Penn State retained the fistic championship of the Eastern Intercollegiate Boxing association Saturday night at State College. Izzy Richter of Philadelphia, National A. A. U. heavyweight champ in 1935, saved the night by beating Tony Brown of Syracuse to make the final score State 24, Syracuse 21. Two of last year's champs retained their crowns. Russ Criswell, captain of the team, and a Pittsburgh resident, took the 115 pound crown for the third successive time and Tony Sala of Villa Nova, and a resident of Donora, retained the 175 pound championship. Penn State also broke the monopolistic hold of Lehigh on the Eastern Intercollegiate wrestling championship at Princeton. The Nittany Lions matmen won the tourney by a one point margin. Each team won three individual titles but the Lions won three seconds for their margin of victory. State posted 31 points against 30 for Lehigh.

Steffen Shuns Offer At Tech
Judge Steffen Refuses To Annex Name To Contract To Coach Football

(International News Service)
PITTSBURGH, Mar. 16—Carnegie Tech's football coaching problems remained unsettled today as it was learned that Judge Walter P. Steffen, Chicago, former head coach for the Skibos, did not accept a contract to return here.

Judge Steffen, who served 18 consecutive seasons as head mentor for the Techies, was present at a series of confabs with Carnegie athletic officials yesterday but details were withheld. Nor was it learned whether Steffen's decision was final.

Remote Control
According to Tech's offer, it was learned, Judge Steffen, would direct Tech's grid activities by remote control with present coach Howard Harpster as his first aide. This arrangement worked out well once before at Tech when Robert N. Wadell was the judge's assistant, it was pointed out.

Tech's athletic officials were silent on other possible plans if Steffen's refusal becomes final.

Last Field Goal Made In Final Seconds Of Play

New Castle's last field goal against Findley Vocational Saturday night in the Pitt stadium was the subject of controversy for a moment or two among the spectators. Some of them thought the goal had come too late to be counted but the referee ruled that it was good.

Dutkin received the ball on a pass from the middle of the floor. Foxworth his opposition he dribbled the ball a few steps and then shot from about the foul line. It was a perfect shot, but just as the ball was descending towards the hoop the timer's gun cracked out before the ball actually went through.

Under the rules a ball is in play after it has left that player's hands and if the gun ends the game before it goes through the hoops it still counts.

Former Local Fans Attend Contest

A number of Pittsburgh people, former New Castle people and friends of New Castle people were at the game in Pitt stadium Saturday night.

Mr. and Mrs. Julius V. Blaha were in the crowd as were Mr. and Mrs. William Haid. Two former Westminster college athletes were present, Rusty Coles, a former Westminster of the Homestead team, and Jiggs Havrilla, former football star and now football coach at North Braddock high school.

Luke Rowe, a former New Castle high school basketball star and now a star on the University of Pittsburgh team, was present at the game, although he has been present at all the tournament games participated in by New Castle.

And just in case you are interested where Findley Vocational school is located. It is in Imperial, Pa., a coal mining town about 25 miles out of Pittsburgh.

Better Go Early
The New Castle team will leave for Pittsburgh about 4 o'clock Tuesday afternoon. There will be about 20 in the party. A stop will be made at Zellenople for supper.

It would be wise for any New Castle fans driving to the game to get an early start. The bargain bills generally fill the stadium and first there first served is the order of the seats.

Plan School For Game Protectors

Officers Training School To Be Established In Jefferson County

In order to obtain an even higher grade of game protectors in Pennsylvania the Pennsylvania Game Commission today announces the formation of a student officers' training school for the purpose of training young men in the work of protecting wild life.

The school will be located in Jefferson county near Brookville, and the first class will contain 35 students. Applications to be considered must be postmarked not later than midnight of April 10. All application blanks must be procured from the state game commission and candidates must be between 21 and 40 years of age, not less than 5 feet 8 in height and not less than 135 pounds nor more than 200 stripped.

Term Of One Year

The course of instruction will last for one year, with the students spending one-fourth of their time in intensive training in the school rooms and the balance in the field in practical work. The salary during the time in school is \$25 per month with maintenance and subsistence furnished, and \$60 per month in the field and actual traveling expenses.

Any student failing to pass the first 30 days' instruction will receive no compensation. All students who successfully complete their course of instruction will be assigned as game refuge keepers, travelling game protectors or district game protectors.

With the installation of the training school all other methods of selecting salaried personnel in the game commission are abolished. It is expected there will be 150 or more applicants for the first class of 35 and the commission expects to pick only the highest grade applicants to take the course. The students will be instructed in the history of the game commission, legal procedure, general protection, propagating and restocking, game management and related instruction.

School Teachers Hurt In Crash

Miss Florence Ehle And Miss Susanna Smith Sustained Fractured Pelvis

FOG CAUSE OF MANY ACCIDENTS

ELLWOOD CITY, March 16.—Miss Florence Ehle and Miss Susanna Smith, of 208 Second street, are in the Ellwood City hospital each with a fracture of the pelvis as a result of an automobile accident on the Ellwood-New Brighton road just before 8 o'clock Saturday evening. Two men occupants of the car escaped with minor injuries.

The four had been returning from Pittsburgh and were near Ellwood City when the accident occurred. The car had gone off the road on the right hand side. The soft and muddy condition of the road caused the car to swerve suddenly and head for the other side of the highway where it crashed into a telephone pole. The car was considerably wrecked. The passengers aided in extricating the injured ladies and rushed them to the local hospital. They are teachers in the local schools.

Other Accidents

The heavy fog that engulfed this section Saturday was responsible for a number of wrecks in and near the city. Three cars were involved in an accident on Brown's hill of the New Castle road about 11 o'clock. The cars of Howard Workley, of Wurtenburg, and Paul McCumblings collided on a curve of the hill with both cars being considerably damaged. The three passengers in each car escaped with minor injuries. While the cars were being investigated the damage, a third car, driven by Junior Houk, of Mahoningtown, crashed into the both of them. The accidents were investigated by Highway Patrolmen Bettes and Vent, who cleared the road for traffic.

Word was received by local police of accidents on the Wurtenburg road and another on the Zellenpote road near the North Star school.

Few Candidates Are Withdrawing

Republican Battle For State
Nominations Seems Cer-
tain At Primary

BALDWIN LIKELY
TO STAY IN RACE

(International News Service)
HARRISBURG, Mar. 16.—A Re-
publican battle at the April 28 pri-
mary was foreseen today—the last
for withdrawal of candidates—in
Auditor General Frank E. Bald-
win's apparent determination not
to abandon his race for the G. O. P.
nomination as state treasurer.

Only a handful of the 2,527 can-
didates who filed nominating peti-
tions for various state offices with
the elections bureau had withdrawn
as the final day, with its five o'clock
deadline, found organization Republi-
can leaders frankly concerned over
Baldwin's stand.

Week-end parleys during which
efforts were continued to convince
the fiscal officer he should with-
draw in favor of Frank L. Pinola,
Kingston organization choice for
the treasury post—as a concession
to party solidarity—ended late last
night without success. Baldwin,
claiming the support of 37 county
leaders, was determined to "fight to
the finish."

Messner May Quit
Some chance was seen, however,
that his running-mate and depart-

ment aide, Otto F. Messner, Lan-
caster, might withdraw his bid for
the nomination to succeed Baldwin
as auditor general. This would
leave E. Arthur Sweeney, Greensburg
publisher, as the chief contender,
with organization support.

Baldwin's replacement of the
board of mercantile appraisers in
Philadelphia and indications he
might wipe out 39 other jobholders
under his jurisdiction there served
notice on organization leaders he
had no intention of quitting with-
out a struggle.

Republican leaders were given
more reason than ever for wanting
a "harmony slate" as a result of
week-end developments which made
a special session of the legislature
a virtual certainty. With antici-
pated session strife and legislative
vacancies to be filled, G. O. P.
spokesmen were fearful a party split
over candidates might endanger
their position in the electoral battle
this spring and next November.
